

NICOLE M. SAMU, MS, GISP

nsamu9@gmail.com | www.linkedin.com/in/nicole-samu-gisp

Education

<u>M.S. in Geography</u> , University of Tennessee, Knoxville	2012
<ul style="list-style-type: none">Thesis: Spatial Discrepancies between NHDPlus and LIDAR-Derived Stream NetworksAdvisor: Dr. Liem Tran	
<u>B.A. in Geography</u> , University of Tennessee, Knoxville	2008
<ul style="list-style-type: none">3-week study abroad course (Beijing, Xi'an, and Shanghai): The Geography and Culture of China	2007
<u>B.A. in Psychology</u> , University of Tennessee, Knoxville	2005

Career Training Highlights

<u>Online Advanced GIS Capstone Certificate Program</u> , University of Wisconsin, Madison	In Progress
<u>MOOC Cartography (Online)</u> , Esri Academy	Oct 2018
<u>Data Visualization & Infographics with D3 (Online)</u> , Knight Center for Journalism in the Americas	Dec 2015
<u>Geographic Information Systems Professional (GISP) Certification</u> , GIS Certification Institute	Dec 2014

Professional Experience

<u>Cartographer & Data Coordinator</u>	Feb 2014 - Present
--	--------------------

Oak Ridge National Laboratory - Environmental Sciences Division, Oak Ridge, TN

- Provide technical support for project-specific needs and ad-hoc requests from management, project leads, team members, and sponsors.
- Create and manage digital maps and maps for print that effectively convey complex analytical information in an easily digestible and visually engaging manner for both expert and general audiences.
- Develop map templates, production methods, and design techniques to streamline mapping workflows and produce a cohesive look and feel to maps for research projects and sponsor activities.
- Leverage and advocate the use of advanced visualization tools and techniques for collaborative information sharing and knowledge discovery.
- Identify GIS data needs and challenges, research solutions, and recommend actions to program managers and project leads.
- Contribute to project scoping, proposal writing, budget planning, and ensuring that deadlines are met within time and budgetary constraints.
- Act as a point-person for website and data management technical operations. Support, coordinate, and track website management, data management, and end-usage. Respond to and ensure that all website inquiries are addressed and archived.

<u>Post-Master's Research Associate</u>	Jun 2012 - Feb 2014
---	---------------------

Oak Ridge National Laboratory - Environmental Sciences Division, Oak Ridge, TN

- Contributed GIS data management from analysis through archival and produced 200+ maps for the New Stream-Reach Development project—team received the ***Significant Event Award* for its significant contribution to the ORNL's National Hydropower Asset Assessment Program (national-scale data integration project).
- Designed the first prototype for The National Hydropower Map to visualize and characterize the geospatial distribution of the U.S. existing hydropower fleet; received **Awards for Best Cartography* on both the 2014 and 2016 versions at the East TN Geographic Information Council Annual Meeting.
- Coordinated with management, project leads, team members, and sponsors to support the development of website content such as web pages, applications, and data resources for energy-water-environmental research and data initiatives.

Graduate Research & Teaching Assistant

Sep 2009 - May 2012

University of Tennessee - Department of Geography, Knoxville, TN

- Fall 2011, Spring 2012 (RA) — U.S. EPA's ReVA project. Processed Land Use Land Cover GIS data to support U.S. water quality modeling research.
- Fall 2010, Spring & Fall 2011 (Head GTA) — Introduction to GIS.
- Fall 2009 & Spring 2010 (TA) — Introduction to Physical Geography.

GIS Intern

Jan 2008 - Aug 2011

Oak Ridge National Laboratory - Geographic Information Science & Technology Group, Oak Ridge, TN

- Collaborated with GIS team members to compile, analyze, and report ad-hoc estimates and 90-meter resolution visualizations of potentially affected populations for real-time national emergency response simulations.
- Used GIS analysis and remote sensing techniques to validate and verify large geospatial infrastructure and high-resolution population database models used to address critical emergency response situations.
- Stayed atop organizational and other relevant data management standards and handled all data ethically and responsibly to ensure research integrity and appropriate handling of pre-publication and protected geospatial information.
- Managed data licenses for ORNL's LandScan Global project.
- Led a case study on extending LandScan's USA model to better account for geospatial-temporal distributions of business and leisure travel populations and presented findings at the 2009 American Association of Geographers Annual Meeting.
- Collected spatial and temporal data on holiday populations and used ArcGIS software to organize the information into a flexible and user-friendly geodatabase.

Laboratory Technician

Aug 2007 - Apr 2008

University of Tennessee - Laboratory of Tree-Ring Science, Knoxville, TN

- Prepared and analyzed core samples and data on a master whitebark pine chronology for Arkansas Game and Fish Commission vs. the United States; Funded by the United States Department of Justice, Environment and Natural Resources Division, Natural Resources Section. Hiked off-trail to collect core samples and fire history data to support various dendrochronology research initiatives within the Department of Geography.

Student Conservation Association Botany Intern

Jun 2007 - Aug 2007

National Park Service - Great Smoky Mountains National Park, TN & NC

- Used GPS units to navigate off-trail to remote sites, set up sample plots, and collect ecological and soil data to monitor the status and trends of vegetation communities throughout the Great Smoky Mountains National Park. Prepared soil samples for analysis and input vegetation data into an Access database system.

Select Technical Skills

GIS: ArcGIS (11 years of experience), familiar with QGIS

Cartographic: Adobe Illustrator, Photoshop, Lightroom, Natural Scene Designer Pro 7.0; familiar with Blender, InDesign, MAPublisher

Languages: HTML, CSS; familiar with Javascript (D3), Python, VBA, SQL

Content Management Systems: Drupal, Wordpress, Wix

Microsoft Office: Word, Excel, Powerpoint, Access, Visio

Research Experience

Watershed dynamics, renewable energy, hydropower (existing assets, new potential technology, licensing and regulation, markets and trends, environmental mitigation, climate changes impacts), environmental conservation, terrain analysis and modeling, spatio-temporal population distribution modeling, scenario-based analysis of affected populations, remote sensing, dendrochronology, biogeography.

Awards

*Best Cartography Award for the '2016 National Hydropower Map' – 2016 East TNGIC Conference

Best Technical Paper (2nd Place) – 2015 HydroVision International Conference

**Significant Event Award for the National Hydropower Asset Assessment Program – Issued in 2014 by ORNL

*Best Cartography Award for the '2014 National Hydropower Map' – 2014 East TNGIC Conference

Professional Memberships & Committees

North American Cartographic Information Society (NACIS)

American Association of Geographers (AAG)

Visualization Facility Committee - Renewable Energy Systems Group, ORNL

- Active volunteer committee member supporting an effort to convert a meeting room into a visualization facility for increased collaboration, knowledge discovery, and idea formation through advanced visualization capabilities.

Volunteer Experience

Cartography Volunteer

Aug 31 - Present

Appalachian Trail Conservancy - Asheville, NC

- Map creation for ATC staff needs. Currently creating a map of campsites along the southernmost section of the AT to assist land managers with identifying non-compliant campsites.

Trail Maintenance Volunteer

Aug 18, 2018

Tennessee Eastman Hiking Club - No Business Knob Shelter, Unicoi, TN

- Hiked to and painted over graffiti on the No Business Knob Shelter.
